New York, April 27.—Spot cotton closed steady at 10 points higher; middling uplands 13.5%; middling Gulf 14.50; sales 20 bales. Futures closed steady 14.50; sales 20 bales. Futures closed steady 15.5%; May E.5.6.

The cotton market steady at an advance of 2 to 5 points on firm English cables, particularly in reference to spot cotton, sales of which were reported of 10.00 bales at an advance of 20 English points, while futures reflecting the improvement in trade conditions were also higher than expected. It was the first May notice day in New Orleans, and apprehensions as to the effect of forces in that market at first seemed to restrict buying, but it soon developed that the Southern bulls were taking all tenders with private wises, indicating that they were bidding for more. Tales started a more active demand, and in the local market, prices before midday had been advanced to 12.75c for May, 13.96c for July and 13.50c for Oct. net gains of 15 to 23 points. This level attracted more liquidation by smaller longs, however, and a renewal of selling by the room shorts, who had covered early, and ourling the afternoon the market, while very irregular, showed an easier tendency, in spite of night estimates for to-morrow's receipts at leading points, and predictions for another builts however selling in the late market, and there appeared to be more bear pressure. The market was finally sleady. Sales of 400,000 bales were reported.
